

Frank Hu

General Manager of Century 3 (Shanghai) Inc.

Frank Hu is General Manager of C3's organization in Shanghai, China. He has 20 years of operations and project management experience in the United States and China working for major international engineering and construction companies. As General Manager of C3 China, Frank helps the company successfully recruit and retain qualified professionals, and maintains best quality project delivery and safety performance. He is highly accomplished in project management, permitting, sustainability, design management, and construction management.

Prior to joining C3 in 2004, he founded DHZ Engineering & Construction Co. Ltd. in China, which successfully delivered turnkey projects in cooperation with several famous local China Design Institutes. Prior to that, he served as Lead Mechanical Engineer for CH2M HILL's industrial business group, IDC, in China for the design, project, and construction management of high-tech microelectronics facility construction projects. He was also the Lead Mechanical Engineer for AC Martin Partners in the United States for many landmark projects in Los Angeles, California, such as the City Hall.

Frank Hu is active in several professional organizations, including the American Society of Mechanical Engineers (ASME.) He is a registered Professional Engineer (PE) in Oregon and California.

Frank Hu graduated from Washington State University with a Ph.D. degree in Mechanical Engineering. He holds a Bachelor and Master's degree of Mechanical Engineering from Beijing University of Aeronautics and Astronautics. He is expert in the technical areas of manufacturing automation, fluid dynamics, and 3D airflow modeling.

He was born and raised in China, and is a permanent resident of United States. He speaks and writes both Chinese and English fluently.
